

A-T Solutions Acquires Trancite Logic Systems

Leader in anti- and counterterrorism services purchases IT company specializing in law enforcement, homeland defense to offer customers full range of mission-focused global security solutions

Fredericksburg, Va., October 1, 2009 – [A-T Solutions Inc.](#), an industry-leading anti- and counterterrorism professional services firm based in Fredericksburg, Va., announced today it has acquired [Trancite Logic Systems](#), an information technology company based in Boise, Idaho, that specializes in anti-terrorism technology solutions for federal, state and local law enforcement organizations. This is the second acquisition A-T Solutions has made within the past four months.

“We’re very excited to secure a long-term, strategic business alignment with our key partner of the last five years,” said [Ken Falke](#), A-T Solutions CEO. “Trancite’s team has repeatedly demonstrated superior performance and delivered industry-leading technology solutions to the DoD, DHS and law enforcement marketplace.”

Trancite Logic Systems will be integrated into the Technology Solutions business unit within A-T Solutions. Together, the companies will be able to provide customers with a complete and comprehensive suite of cutting-edge and relevant IT products and services as part of the combined organization’s global security solutions. Trancite Logic Systems CEO Joshua Evarts will take on a new position as A-T Solutions’ first chief innovation officer, responsible for driving innovation throughout company systems and services.

“The strategic alignment of these two mission- and solutions-focused companies is a win-win for both organizations,” said Evarts. “We look forward to leveraging the knowledge of our software engineering team with A-T Solutions subject matter experts to offer greater innovations in IT solutions, software and services to help our customers pursue a safer and more secure world.”

In June, A-T Solutions acquired [Accelligence LLC](#), a Vienna, Va.-based firm providing intelligence and mission-focused solutions to organizations within the U.S. government and intelligence community.
